

LEAF VACUUM

FEATURES & BENEFITS

- Powerful vacuum
- Rotary side brush
- 5 m (16 ft) hand hose available
- Easy emptying thanks to hydraulic door opening from driver seat

This attachment creates tremendous suction for collecting leaves, grass clippings, and other loose debris in parks, lawns, yards etc. The right rotary side brush extends the cleaning area. The leaf vacuum is equipped with a floating system and four adjustable wheels that allow to work well on uneven surfaces also. The suction mouth is made of plastic material that can absorb even small impacts.

The option hand held hose allows you to clean tight work areas, flower beds, along fences, and many other hard-to-reach locations.

The leaf vacuum is equipped with a hydraulically opening door on the box floor for easy disposal of the collected debris into a container, trailer, etc.. It requires low maintenance and cleaning is quick and easy.

Note: suggested floating boom valve on machine.
