FEATURES & BENEFITS

- Cost effective
- High capacity

The MultiOne dumper is a very useful tool used to collect, transport, store, and empty waste. There are two sizes, a 200 l (7 cu ft) unit, and the larger 400 l (14 cu ft). Each of these units can stand on its own when detached from the MultiOne, and easily dumped by the machine when full. The smaller model can be easily unloaded by lifting the machine boom, while the larger model is equipped with a front side that can be open with a lever.
