FEATURES & BENEFITS

- **Heavy duty construction**
- **Easy and fast processing**
- **Separates stone/soil/vegetation**
- **Screens without crushing or shredding**
- **Suitable for different types of soil**
- **Separate project materials on-site, saving time and money**

The MultiOne screening bucket separates different sized materials thanks to its unique construction. The purpose of the screening bucket is to separate larger and smaller particles from the soil and not crush the larger material into smaller particles.
The bucket design allows to load and unload the material quickly and easily.
Topsoil making for landscaping, nurseries and wholesale is the principal use while some construction contractors utilize the bucket for screening.
